ECOLOGY

ALL FORMS OF LIFE IN RELATION TO ENVIRONMENT

OFFICIAL PUBLICATION OF THE
ECOLOGICAL SOCIETY OF AMERICA

3796 68
V. 47
1966

VOLUME 47, 1966

PUBLISHED BIMONTHLY AT DURHAM, N. C.
BY THE
ECOLOGICAL SOCIETY OF AMERICA
AND THE
DUKE UNIVERSITY PRESS

ECOLOGY

A BIMONTHLY JOURNAL
DEVOTED TO ALL PHASES OF ECOLOGICAL BIOLOGY
Established 1920

Editors: FOREST STEARNS, North Central Forest Experiment Station, Institute of Forest Genetics, Rhinelander, Wisconsin 54501
PETER W. FRANK, Department of Biology, University of Oregon, Eugene, Oregon 97403
RICHARD S. MILLER, Department of Biology, University of Saskatchewan, Saskatoon, Canada

Review Editor: PAUL S. MARTIN, Geochronology Laboratories, University of Arizona, Tucson, Arizona 85721

Senior Associate Editor: JOHANNA CLAUSEN, Rhinelander, Wisconsin 54501

Business Manager: H. J. OOSTING, Duke University, Durham, N. C. 27706

Circulation Office: Duke University Press, Box 6697, College Station, Durham, N. C. 27708

MEMBERS OF THE EDITORIAL BOARD

1964-66

STANLEY I. AUERBACH, Ecology Section, Oak Ridge National Laboratory, Oak Ridge, Tennessee.
HERBERT G. BAKER, Botany Department, University of California, Berkeley, California.
GEORGE A. BARTHOLOMEW, Department of Zoology, University of California, Los Angeles, California.
CLAIR A. BROWN, Department of Botany and Plant Pathology, Louisiana State University, Baton Rouge, Louisiana.
HAROLD C. FRITTS, Laboratory of Tree Ring Research, University of Arizona, Tucson, Arizona.
PETER R. MARLER, Department of Zoology, University of California, Berkeley, California.
JOHN H. RYTHER, Woods Hole Oceanographic Institute, Woods Hole, Massachusetts.
ROBERT S. SIGAFOOS, General Hydrology Branch, U. S. Geological Survey, Washington, D. C.

1965-67

F. H. BORMANN, School of Forestry, Yale University, New Haven, Connecticut.
EVILLE GORHAM, Department of Botany, University of Minnesota, Minneapolis, Minnesota.
NELSON HAIRSTON, Department of Zoology, University of Michigan, Ann Arbor, Michigan.
KIM HARPER, Department of Botany, University of Utah, Salt Lake City, Utah.
JOEL HEDGPETH, Marine Science Laboratory, Newport, Oregon.
ALVIN NOVICK, Osborn Zoological Laboratory, Yale University, New Haven, Connecticut.
GORDAN ORIANS, Department of Zoology, University of Washington, Seattle, Washington.
CHARLES E. POULTON, Department of Range Management, Oregon State University, Corvallis, Oregon.

1966-68

THOMAS BURNETT, C. D. A. Research Branch, Box 367, Belleville, Ontario, Canada.
EDWARD W. FAGER, Scripps Institution of Oceanography, La Jolla, California.
CHARLES R. GOLDMAN, Department of Zoology, University of California, Davis, California.
WILLIAM P. LOWRY, Department of Statistics, Oregon State University, Corvallis, Oregon.
EARL R. RICH, University of Miami, Coral Gables, Florida.
WILLIAM H. RICKARD, JR., Biological Laboratory, General Electric Company, Richland, Washington.
PHILIP B. WHITFORD, Department of Botany, University of Wisconsin-Milwaukee, Milwaukee, Wisconsin.
HERBERT E. WRIGHT, JR., Limnological Research Center, University of Minnesota, Minneapolis, Minnesota.

Ex officio members: H. J. OOSTING, Duke University, Durham, North Carolina, and DANIEL A. LIVINGSTONE, Duke University, Durham, North Carolina (the editors of ECOLOGICAL MONOGRAPHS).

Correspondence concerning editorial matters, as well as books and papers for review, should be addressed to the appropriate editor at the address given above.

Subscription price in the United States, $12.00 net a year for complete volumes; Canada and the Pan-American countries add 75c for postage; all others add $1.50. Parts of volumes are to be had only at the single copy rate. Current single copies, $2.00. Back volumes, as available, $24.00 each plus postage. Back single issues, $6.00. Special rates to active and sustaining members.

Missing numbers will be supplied free when lost in the mails if written notice is received within one month of the date of issue of next succeeding number.

Remittances for subscriptions should be made payable to Duke University Press.

Remittances for dues should be made payable to the ECOLOGICAL SOCIETY OF AMERICA.

Business correspondence, including subscriptions, change of address, back numbers, and discontinuances, should be addressed to Circulation Office, Duke University Press, Box 6697, College Station, Durham, N. C. 27708. Correspondence regarding payment of dues in the ECOLOGICAL SOCIETY should be addressed to the Treasurer, Ralph W. Kelting, Department of Biological Science, Kansas State College, Pittsburg, Kansas.

Second-class postage paid at Durham, N. C.

TABLE OF CONTENTS, VOLUME 47, 1966

CROSSLEY, D. A., JR. Radioisotope measurement of food consumption by a leaf beetle species, *Chrysomela knabi* Brown 1– 9

MAYHEW, WILBUR W. Reproduction in the arenicolous lizard *Uma notata* 9– 18

ANDREWS, JAY D. Oyster mortality studies in Virginia. V. Epizootiology of MSX, a protistan pathogen of oysters 19– 31

HOLMES, RICHARD T. Feeding ecology of the Red-backed Sandpiper (*Calidris alpina*) in arctic Alaska 32– 45

BROWER, JAMES E. AND TOM J. CADE. Ecology and physiology of *Napaeozapus insignis* (Miller) and other woodland mice 46– 63

ZAHNER, ROBERT AND ALBERT R. STAGE. A procedure for calculating daily moisture stress and its utility in regressions of tree growth on weather 64– 74

JONES, ALICE SIMMS AND E. GIBBES PATTON. Forest, "prairie," and soils in the Black Belt of Sumter County, Alabama in 1832 ..... 75– 80

VOGL, RICHARD J. Salt-marsh vegetation of Upper Newport Bay, California 80– 87

COTTAM, GRANT AND H. CAMERON WILSON. Community dynamics on an artificial prairie .. 88– 96

FERRILL, MITCHELL D. AND FRANK W. WOODS. Root extension in a longleaf pine plantation 97–102

WHITTAKER, R. H. Forest dimensions and production in the Great Smoky Mountains .. 103–121

DYRNESS, C. T. AND C. T. YOUNGBERG. Soil-vegetation relationships within the ponderosa pine type in the central Oregon pumice region 122–138

VANDERMEER, JOHN H. AND ROBERT H. MACARTHUR. A reformulation of alternative (b) of the broken stick model of species abundance 139–140

UNDERHILL, JAMES C. AND DAVID J. MERRELL. Fecundity, fertility, and longevity of DDT-resistant and susceptible populations of *Drosophila melanogaster* 140–142

VERNER, JARED AND MARY F. WILLSON. The influence of habitats on mating systems of North American passerine birds 143–147

GRANT, P. R. Preliminary experiments on the foraging of closely related species of birds .. 148–151

VORIS, HAROLD K. Fish eggs as the apparent sole food item for a genus of sea snake, *Emydocephalus* (Krefft) 152–154

UNGAR, IRWIN A. Salt tolerance of plants growing in saline areas of Kansas and Oklahoma 154–155

WINKLER, ERHARD M. Moisture measurements in glacial soils from airphotos 156–158

MALCOLM, WILLIAM M. Root parasitism of *Castilleja coccinea* 179–186

ROBERTSON, J. H., RICHARD E. ECKERT, JR., AND A. T. BLEAK. Responses of grasses seeded in an *Artemesia tridentata* habitat in Nevada 187–194

WITKAMP, MARTIN. Decomposition of leaf litter in relation to environment, microflora, and microbial respiration 194–201

WATTS, W. A. AND H. E. WRIGHT, JR. Late-Wisconsin pollen and seed analysis from the Nebraska sandhills 202–210

PHARIS, RICHARD P. Comparative drought resistance of five conifers and foliage moisture content as a viability index 211–221

SHORT, HENRY L., DONALD R. DIETZ, AND ELMER E. REMMENGA. Selected nutrients in mule deer browse plants 222–229

WHITE, KEITH L. Structure and composition of foothill woodland in central coastal California 229–237

WITKAMP, MARTIN. Macroflora, mycoflora, and soil relationships in a pine plantation ... 238–244

TUCKER, VANCE A. Diurnal torpor and its relation to food consumption and weight changes in the California pocket mouse *Perognathus californicus* 245–252

RUPP, ROBERT S. AND MALCOLM A. REDMOND. Transfer studies of ecologic and genetic variations in the American smelt 253–259
CERAME-VIVAS, J. J. AND I. E. GRAY. The distributional pattern of benthic invertebrates of the continental shelf off North Carolina 260–270
MARPLES, T. G. A radionuclide tracer study of arthropod food chains in a *Spartina* salt marsh ecosystem 270–277
LAWRENCE, GEORGE E. Ecology of vertebrate animals in relation to chaparral fire in the Sierra Nevada foothills 278–291
OLSON, EVERETT C. Community evolution and the origin of mammals 291–302
REINERS, W. A. AND G. M. WOODWELL. Water budget of a forest damaged by ionizing radiation 303–306
SANT, HARSHWARDHAN R. Growth and reproduction of *Eragrostis tenella* in pastures on the Upper Genetic plain 306–308
WARING, RICHARD H. AND RICHARD K. HERMANN. A modified Piche evaporimeter ... 308–310
DAVIS, MARGARET B. Determination of absolute pollen frequency 310–311
STRONG, CHARLES W. An improved method of obtaining density from line-transect data .. 311–313
MOBBERLY, WILLIAM C., JR. AND JERALD V. OWENS. Movement of the crawfish *Faxonella clypeata* in a linear maze 313–316
HAZLETT, BRIAN A. Observations on the social behavior of the land hermit crab, *Coenobita clypeatus* (Herbst) 316–317
HO, FRANK K. AND PETER S. DAWSON. Egg cannibalism by *Tribolium* larvae 318–322
SHAW, GEORGE G. New observations on reproductive behavior in the milliped *Narceus annularis* (Raf) 322–323
MILLER, RICHARD S. AND W. J. D. STEPHEN. Spatial relationships in flocks of Sandhill Cranes (*Grus canadensis*) 323–327
COLLINS, MARGARET S. AND A. GLENN RICHARDS. Studies on water relations in North American termites. II. Water loss and cuticular structures in eastern species of the Kalotermitidae (Isoptera) 328–331
JENSEN, PAUL AND KENDALL W. CORBIN. Some factors affecting aggregation of *Isotoma viridis,* Bourlet and *Arion fasciatus,* Nilsson 332–334
HUDSON, JACK W. AND JOHN AUSTIN RUMMEL. Water metabolism and temperature regulation of the primitive heteromyids, *Liomys salvani* and *Liomys irroratus* 345–354
GHENT, ARTHUR W. Studies of behavior of the *Tribolium* flour beetles. II. Distributions in depth of *T. castaneum* and *T. confusum* in fractionable shell vials 355–367
STROSS, R. G. Light and temperature requirements for diapause development and release in *Daphnia* 368–374
PRESTON, F. W. The mathematical representation of migration 375–392
RECHER, HARRY F. Some aspects of the ecology of migrant shorebirds 393–407
JACKSON, MARION T. Effects of microclimate on spring flowering phenology 407–415
BUELL, M. F., A. N. LANGFORD, D. W. DAVIDSON, AND L. F. OHMANN. The upland forest continuum in northern New Jersey 416–432
HEDRICK, D. W., D. N. HYDER, F. A. SNEVA, AND C. E. POULTON. Ecological response of sagebrush-grass range in central Oregon to mechanical and chemical removal of *Artemisia* 432–439
BARNES, BURTON V. The clonal growth habit of American aspens 439–447
WRIGHT, ROBERT T. AND JOHN E. HOBBIE. Use of glucose and acetate by bacteria and algae in aquatic ecosystems 447–464
GYSEL, LESLIE W. Ecology of a red pine (*Pinus resinosa*) plantation in Michigan 465–472
SAINI, R. S. AND H. C. CHIANG. The effects of subfreezing temperatures on the longevity and fecundity of *Oncopeltus fasciatus* (Dallas) 473–477
JEFFRIES, H. PERRY. Partitioning of the estuarine environment by two species of *Cancer* .. 477–481
DELONG, KARL T. Population ecology of feral house mice: interference by *Microtus* 481–484

Wilson, E. O. and G. L. Hunt. Habitat selection by queens of two field-dwelling species of ants 485–487
Stark, R. W. and D. L. Dahlsten. The effect of soil temperatures on the distribution of *Neodiprion* sawfly cocoons 488–489
Mooney, H. A., B. R. Strain, and Marda West. Photosynthetic efficiency at reduced carbon dioxide tensions 490–491
Witkamp, Martin. Rates of carbon dioxide evolution from the forest floor 492–494
Snead, Rodman E. and Mohammad Tasnif. Vegetation types in the Las Bela Region of West Pakistan 494–499
Ferrell, William K. and E. Steve Woodard. Effects of seed origin on drought resistance of Douglas-fir (*Pseudotsuga menziesii*) (Mirb.) Franco 499–503
Monk, Carl D. An ecological significance of evergreenness 504–505
Tisdale, E. W., M. A. Fosberg, and C. E. Poulton. Vegetation and soil development on a recently glaciated area near Mount Robson, British Columbia 517–523
Bray, J. R., J. E. Sanger, and A. L. Archer. The visible albedo of surfaces in central Minnesota 524–531
Vogl, Richard J. and Lawrence T. McHargue. Vegetation of California fan palm oases on the San Andreas Fault 532–540
Ward, W. W., J. V. Berglund, and F. Y. Borden. Soil-site characteristics and occurrence of sugar maple canker in Pennsylvania 541–548
Beatley, Janice C. Ecological status of introduced brome grasses (*Bromus* spp.) in desert vegetation of southern Nevada 548–554
Federer, C. A. and C. B. Tanner. Spectral distribution of light in the forest 555–560
Marshall, J. S. Population dynamics of *Daphnia pulex* as modified by chronic radiation stress 561–571
Young, Willard. Ecological studies of the Branchiobdellidae (Oligochaeta) 571–578
Frings, Hubert and Mable Frings. Reactions of orb-weaving spiders (Argiopidae) to to airborne sounds 578–588
Dawson, W. R., Vaughan H. Shoemaker and Paul Licht. Evaporative water losses of some small Australian lizards 589–594
Waters, Thomas F. Production rate, population density, and drift of a stream invertebrate 595–604
Jameson, David L. Rate of weight loss of tree frogs at various temperatures and humidities 605–613
Cowgill, Ursula M. Season of birth in man. Contemporary situation with special reference to Europe and the Southern Hemisphere 614–623
Van Dyne, George M. Use of a vacuum-clipper for harvesting herbage 624–626
Mitchell, John E., Neil E. West, and Raymond W. Miller. Soil physical properties in relation to plant community patterns in the shadscale zone 627–630
Biswell, H. H., H. Buchanan, and R. P. Gibbens. Ecology of the vegetation of a second-growth *Sequoia* forest 630–634
Hazen, William E. Analysis of spatial pattern in epiphytes 634–635
Johnson, C. M. and P. R. Needham. Ionic composition of Sagehen Creek, California, following an adjacent fire 636–639
Robertson, G. W. The light composition of solar and sky spectra available to plants 640–643
Mueller-Dombois, D. and H. P. Sims. Response of three grasses to two soils and a water table depth gradient 644–448
Monk, C. D. An ecological study of hardwood swamps in north-central Florida 649–654
Federer, C. A. and C. B. Tanner. Sensors for measuring light available for photosynthesis 654–657
Aschoff, Jürgen. Circadian activity pattern with two peaks 657–662
